

IP54 INDOORS HOUSING PACKAGE

HOUSING FOR PTZ AXIS 2130 R / 213 CAMERAS

OVERVIEW

Small-sized dome for indoors use. Its design allows it to camouflage to realise a discreet surveillance in a given area.

Easy and simple to set up, it is directly mounted on the ceiling, thus no bracket is required. This protection housing is used for IP Panasonic cameras, PTZ-type, like the **Axis 2130 R** and the **Axis 213** cameras.

The protection level of this housing is IP54, which means it protects the camera, in indoors settings, against dirtiness, direct water dropping from any direction. The body is made of black aluminium and the half-dome is of Plexiglas, available in two version: transparent and tinted.

The indoors protection housing for Axis PTZ cameras is designed to set up in hostile industrial environment, with dust and humidity, in road or railway tunnels or in any other indoors areas.
