

Polycom® Communicator

Model C100S

High fidelity, hands-free Skype calls

Benefits

Hands-Free Freedom – Untie yourself from your headset for one-on-one Skype calls or group conversations

High-Fidelity Wideband Voice Quality – High-quality audio for the best possible Skype experience. Hardware supports up to 22kHz for CD-quality music or presentation audio

Skype Certified – The only Skype certified speakerphone that delivers business-class, high-fidelity performance

Two High-Quality Microphones – Enjoy the freedom of moving around your office or work space while on Skype calls, and make sure others on your call hear every word clearly

Easy to Use – Convenient buttons enable you to launch Skype, pick up and hang up calls, and control volume and mute.

Built-in Stereo Headphone Port – Plug in headphones for private conversations, or unplug to go hands-free

Ultimate Portability – The integrated USB cable stores inside the unit for portability and convenience

Untie yourself from your headset for remarkable voice quality over Skype.

Polycom Communicator gives you the ultimate hands-free Skype experience. Based on the same technology used in Polycom's legendary line of triangular SoundStation conference phones, the Skype-certified Polycom Communicator enables crystal-clear, natural conversations when using Skype. Enjoy the freedom of not wearing your headset for hands-free Skype calls, or plug into the built-in stereo headphone port for private conversations.

The Polycom Communicator delivers high-fidelity wideband voice quality that sounds like you are in the same room with the people you're calling. Two high-quality microphones provide excellent range for group conversations with up to four participants. Polycom's Acoustic Clarity Technology eliminates echoes and feedback, maximizing your Skype experience.

Polycom Communicator connects and powers through an integrated USB cable for easy installation and use – no extra cables to carry or batteries to charge. Its small size and carrying case make it easy to take with you. Plus, the high-quality speaker doubles as a great portable solution for CD-quality music and presentation audio.

Unrivaled ease of use and Skype integration allow you to launch the Skype application and pick up or hang up calls without using your mouse. Convenient buttons and indicators for volume control and mute are also built-in.

Don't settle for imitators – only Polycom Communicator deliver a hands-free Skype experience featuring:

- High-fidelity wideband voice quality
- Two high-quality microphones
- Polycom's legendary echo cancellation and full duplex technology
- Integration with Skype for a seamless user experience

Make Great Things Happen with Polycom Communicator

In today's Internet driven world, the ability to conduct real time communication and collaboration has become critical to an organization's survival. As the market leader in voice, video, data and Web solutions, our award-winning conference technology makes it easy for people to interact and maximize productivity — over any network, in just about any environment, anywhere around the globe. That's why more organizations worldwide use and prefer Polycom conferencing solutions. Because when people work together, great things happen. See how you, too, can achieve great things with Polycom Communicator.
